

**Processor:**

**Summary:**

Works under the direction of the Cattle Receiving and Processing Coordinator to insure all animal health protocols are followed. This position processes cattle at initial and re-implant with a low stress handling method and maintains a safe work environment.

**Essential Functions include but are not limited to the following:**

- Review animal diagnoses received from Pen Riders; Cattle Receiving & Processing Coordinator; and Cattle Manager.
- Process Cattle according to direction prescribed by the Cattle Manager and Cattle Receiving & Processing Coordinator.
- Review animal health records and symptoms.
- Review protocol via computer based upon diagnosis.
- Administer injections and/or other treatments according to the protocol.
- Update animal health records and/or ear tags.
- Participate and/or perform animal necropsies to determine cause of death.
- Prior to shipping, run required reports (i.e. Not in Home Pen, Animals on Withdrawal) to insure accuracy of head counts and/or ability of animals to ship.
- Other duties may be assigned.

**Qualifications:**

- High school diploma or general education degree (GED); or one to three month's related experience and/or training; or equivalent combination of education and experience.
- Valid driver license.
- Ability to communicate in English is preferred.

**Benefits**

- Competitive Pay with Bonus Opportunity
- Medical, Dental, and Vision Start on Day 1
- Company pays for over 80% of insurance costs
- 17 vacation days a year
